

## **EVCC Kids Under Construction Elementary Class**

### **COVID-19 Rules & Guidelines**

- All students and volunteers are required to wear a facemask and practice social distancing the entire time they are inside the Church building. (Facemask exception will be allowed to those with medical condition as in state guidelines.)
- All Volunteers and Students will have temperature checks before they come into Children's Classroom.
- Student's Parents need to fill out the liability waiver before student can participate in class.
- Parent's will be given a beeper for their family; in case child is not following rules or being unsafe. Warning to be given before beeping parents.
- Student's not following social distancing and facemask rules will be removed from the classroom for the day. They may return next week and try again.
- Parents will enter church through double doorway near the fellowship hall, check-in student in the hallway, bring student(s) to their assigned area, and exit the fellowship side door. They will then need to go through the front doors to check-in for church service then exit the front doors and come back inside the same way they did when they checked the child-in.
- There will be a volunteer assigned to checking in & out students. It will be the volunteer's job to check off students that arrive and keep track of number of students in classroom.
- There will be at least 1 teacher and 1 helper every Sunday for class.
- All students and volunteers are to use the restrooms located in the back hallway of the church and need to stay within the Fellowship Hall, entry hall to Fellowship Hall and the back hallway & restrooms. This is due to restrictions by state on number of people allowed in each area.
- All materials will need to be gathered before 10 am and volunteers ready to go by that time as well, again due to the restrictions on the number of people in each area allowed. (Please note Tiffany's goal is to have all this prepared in advance for you and in room ready for the lesson)
- Hand Sanitizer and Disinfectant wipes will be available. We encourage volunteers and students to use them as needed.
- After class is finished, the following cleaning and disinfecting need to be completed before you leave:
  - All tables and chairs wiped down with disinfectant wipes. If chairs have cloth on them spray with disinfectant spray.
  - All Supply Totes along with wipeable supplies that were used need wiped down with disinfectant wipes. This includes the teacher and helpers supply totes.
  - Wipe down all door handles, doors, or other high touch areas used during your class. (Tiffany or cleaning people on duty will take care of wiping down the bathrooms if used. Your help would be welcomed though.)
